Filed: 06/24/02
Entitled: **Process and System for Recovering Energy from Carbon-Containing Materials**
Inventors: Denis A. Randall
Docket No.: SPRUSON-07033

Please advise us as to the status of the above named patent application. We paid the issue fee for this application on March 22, 2004, and were unpleasantly surprised to find that it has not yet issued. We would greatly appreciate having someone in this art group track down the application and provide us with an estimated issuance date.

Sincerely,
